"Unfortunately, I cannot cycle myself, but with this bike, we can still go out together." - Richard

OPair

Wheelchair bike

The OPair is suitable for cycling together with someone that can not cycle themselves. A comfortable seat is positioned at the front of the bike. However, your own custom seat can also be fitted.

The depth of the seat and the backrest can be adjusted to the passenger. The driver of the bike has a good overview of both the passenger and the road. The passenger can enjoy the unobstructed view.

The OPair is also available with a divisible frame. This way the front of the bike can be used as a wheelchair on location.

Benefits

- ✓ Stable cycling due to the slightly angled front wheels
- ✓ Easy to drive due to the regular steering angle
- ✓ Suspension for extra comfort for both the passenger and driver
- ✓ Ergonomic cycling position for the driver
- ✓ Adjustable and foldable footrests for the passenger

Popular options/accessories

- Pedal assist (Smart E-Bike)
- Divisible frame: Front section can be used as a stand-alone wheelchair
- Adjustable seat width, which makes it suitable for children
- A variety of seatbelts and foot fixation for the passenger
- Extra battery pack for an increased range
